THE SHEET

Leventhal Map & Education Center, G1006 .T54 1570, identifier 06_01_007848 https://ark.digitalcommonwealth.org/ark:/50959/st74cw52r · Original: no known copyright restrictions, no known restrictions on use (Boston Public Library, Norman B. WHAT WAS DONE

- Paper levelled and toned to the studio standard: level 234.9, warmth 33.0.

- Scanner edge removed: top 200, bottom 247, left 400, right 314 px. No mount board: the sheet was scanned on its own.
- The printed line deepened by a monotone tone curve; ink area changed by 1.1× — the lines are darker, not thicker.
- Owner marks: The red Boston Public Library ownership stamp near the border was removed at the owner's decision: on blank paper it was closed with the clean paper texture of the same sheet; where it overlapped the decorated border, the border pattern was restored from the adjacent stretch of the same border. Lettering and numbers were not touched.

WHAT WAS NOT DONE

- no map content added, removed or redrawn
- Where the library stamp lay over the printed decorative border, the border pattern was restored from the adjacent stretch of the same border; no map content was redrawn.
- no change of proportions
- no global filter
- paper neither bleached white nor tinted
- authenticity marks kept: plate mark, deckle edge, honest patina

MEASURED ON RELEASE

The line is deep, not thickened	ink core 20 of 255 · ink area 1.10× the source
Nothing is burnt out at either end	0.00% of the sheet clipped to white · 0.00% crushed to black
The paper is even across the whole sheet	level 235 · unevenness 23.65, where 4 is the limit
The paper is warm — neither bleached nor tinted	R–B 33, inside the 24–40 band of the studio standard (paper tone D)
Paper texture is kept, not smoothed away	0.98 of the grain the archive scan itself had
Lines are sharper than the scan, with no halo	1.36× the source · halo 0.00%
Nothing of the archive is left behind	stains 0.00% · specks 0.00%

Engine revision 8, standard revision 7.1. Every criterion, with its target and the measured value, is listed in the record below.

Six print files and this passport, 45 MB in total, delivered as six separate ZIP archives (one print file, the passport and a READ ME in each). Nothing else: the catalogue previews and the 1:1 detail crops shown on the shop page are not padding out this archive —

any crop you want is already inside the full-resolution file.

Largest print at 300 dpi: 34.7 × 25.8 cm. At 240 dpi: 43.3 × 32.3 cm. At 200 dpi, still sharp on matte paper at arm's length: 52.0 × 38.7 cm.
